

Adhering to environment-friendly principle,  
Promoting the healthy and harmonious development

In mid-November 2006 , our company successfully passed the scene trial of ISO 14001 Environmental Management System Certification and obtained the certificate issued by China Inspection Group Quality Certification Ltd in December. It is reported that our company is the first cement enterprise to pass ISO 14001 Environmental Management System Certification in Shaanxi Province.

Our company adhered to the scientific concept of development and created an environment-friendly enterprise for conservation of resources, environmental protection and sustainable development in conformity with ISO 14001 Environmental Management System. It also reflected the changes in business philosophy, the great emphasis on environmental protection, health of staff and realization of "the people-oriented" management, as a milestone in the realization of harmonious development of the company.

The establishment and operation of the environmental management system will further enhance the management of resources to promote the company's image and to realize our development goals.
