

Recently, according to the theme of promoting scientific development and facilitating social harmony, the secretary of the Xi'an Municipal Committee, also the member of Shaanxi Provincial Standing Committee, Sun Qingyun, and the Secretary-General, Yang Dianzhong, Vice Mayor, Yue Huafeng, visited Lantian production bases of Western China Cement Co. Ltd. by accompanying the secretary of Lantian county committee, Wang Xinfā.

Sun Qingyun gave a high praise to the new dry process and the outstanding contributions in environmental protection. He said that Lantian Yaobai Cement Project is the key construction projects of "11th Five-Year Plan", and is also the cement enterprise located nearest to Xi'an, we should attach great importance to continuously improve the production process, and ensure that the production process "zero pollution." He was happy to hear that the construction of Waste Heat Power Generation Project and urban waste disposal system that are consistent with the national development policies, not only has eased the pressure on urban garbage disposal, but also bring the more social and economic benefits.
