

West China Cement Limited is pleased to announce that the Zhu Jialing tunnel of the Ankang conveying belt has been completed. Built by the Fourth Construction Company of Xunyang County Shaanxi Province, the tunnel is 320m long and was completed on the 19 November, 6 days ahead of schedule. On the completion date, Mr. Wang Changping, general manager of Ankang Plant, Mr. Luo Zhian, general manager of the construction company and project manager and Mr. He Rongzhong visited the site to congratulate the construction team on this excellent achievement. The completion of the Zhu Jialing tunnel brings the Ankang conveying belt one step closer to being the longest transportation corridor of its type in Asia.
