

WCC wins the China Cement Net's Top 50 Clinker Capacity for 2009 in China Cement Corporations Award

West China Cement ("WCC") has been recently awarded "the Top 50 Clinker Capacity for 2009 in China Cement Corporations" by China Cement Net. China Cement Net is the most authoritative platform for information consultation in the cement industry and they arrange rank statistics for clinker capacity of cement corporations all over China each year. This year, because of an increase in its clinker capacities enhanced by the adoption of NCPP technology, WCC has been ranked 25th, an improvement of 4 rankings compared to 2008, by China Cement Net. WCC has also been ranked first amongst local clinker producers in Shaanxi Province.
