

The Second Group of the Ninth State Council Inspection Team Visits Lantian Plant

To further implement a series of important instructions proposed by the Central Government regarding the strengthening of safety measures during the production process, the second group of the ninth State Council Inspection Team visited Lantian Plant on 29th May.

The group was warmly welcomed by Mr. Miao Zhizhong, County Magistrate of Lantian, Mr. Liu Shuanghu, County Politics and Law Committee Secretary, Mr. Tain Zhenjun, Vice President of WCC and Mr. Liu Jianjun, Administrative Assistant Manager of Lantian Plant.

Mr. Miao began the day by reporting to the group on the progress made regarding the new safety measures implemented at the Lantian County. Mr. Liu also gave an overview of the safe production process at Lantian Plant. The group then inspected the central control room and mining site.

The group fully recognized the achievement made by Lantian Plant and put forward suggestions for improvement. They also asked the management and the staff at the Lantian Plant to attach great importance to safety, which will achieve both economic benefit and social benefits.
