

## **Pucheng Plant was awarded “Green Enterprise of Shaanxi Province”**

On 13 Nov., Pucheng Plant of West China Cement (“WCC”) was awarded as “Environmental Friendly Demo Project and Green Enterprise in Shaanxi Province” at the green project training conference in Weinan City.

The award represents Shaanxi Government’s full recognition and encouragement on WCC’s substantial input and great achievement on environmental protection. In the future, we will continue to promote the company’s development through equipment innovation and technology upgrade, in order to perform the environmental protection work well and accomplish the green working environment. We will also try our best to provide our staffs with an elegant and comfortable working and living environment. Meanwhile, we will continue to reform the enterprise by improving our management’s efficiency. We will keep enhancing the energy saving and consumption and emission reduction, in order to further improve the company’s performance and make contribution to the economic growth and creating a harmonious and healthy society.
