

Informatization Training for WCC's Senior Management

On 18 June, organized by WCC's HR Department and Information Center, an informatization training for WCC's senior management was held in the meeting room. The training is aiming to strengthen our management system and improve work efficiency. Mr. Wu Zhilin, an expert in informatization field, gave a vivid lecture on the development of informatization on cement industry at home and abroad to all the attendees.

Above thirty managements attended the training.
