

## **Contract Win - Lanzhou-Chongqing Railway**

WCC is pleased to report that it has recently won a tender to supply cement for the construction of the Lanzhou-Chongqing Railway project. WCC will be supplying cement for the section of the railway that passes through Longnan District, Gansu Province and has been contracted to supply 120,000 tons of cement.

The Lanzhou-Chongqing Railway will stretch from Lanzhou City of Gansu Province to Chongqing City, with a total length of approximately 944.9 kilometers, of which a major part of the construction is bridges and tunnels. The project is scheduled to be completed in 6 years with an estimated investment of RMB 77.4 billion.

This contract shows that our cement products and sales network has successfully entered into neighboring markets outside of Shaanxi Province and remains a competitive supplier of cement products to infrastructure projects regionally.
