

WCC Successfully Bided for the Procurement of China National Petroleum

On March 20, China National Petroleum released the winning notice of procurement bidding for oil well cement. WCC successfully bided for the procurement of China National Petroleum in several regions in China, mainly including Shaanxi, Xinjiang, Gansu, Inner Mongolia Provinces and became the first grade supplier.

There are 13 cement suppliers participated in the bid which are leading cement enterprises and long-term suppliers of China National Petroleum and therefore the bidding is highly competitive. Based on the accumulation of years of co-operation, reputed brand image and the complete fulfillment of all detail requirements through detail analysis on both business and technical terms, although WCC is a new first grade supplier for oil well cement in 2016, WCC is able to win the bid eventually.
