

## **WCC ranks on the list of the top 30 cement enterprises in the world**

Recently, the Ministry of International Cooperation of the China Cement Association officially released the “ranking of the top 30 cement enterprises in the world”, WCC ranked 23<sup>rd</sup> for the first time with its strong comprehensive strength and outstanding brand status.

In recent years, WCC has always focused on the main cement industry, through the implementation of transformation and upgrading, structural adjustment strategy, layout of intelligent logistic, intelligent factories, green building materials, and other new forms of business, continue to enhance the market competitiveness of products, make up for the shortcoming of industrial development, enterprise production and management has achieved a great of breakthrough results. While vigorously promoting the development of domestic undertakings, the group has actively responded to the national initiative of “Belt and Road”, launched the international journey in an all-round way, and constantly activated the new momentum of enterprise development.

In the future, WCC will firmly grasp the new pattern of domestic and international development, constantly enhance the core competitiveness

and brand value, with the posture and strength of the top 30 cement enterprises in the world, to make more new contributions for China and the world cement industry.
