

## Tongchuan Company's 10000T/D clinker cement production line was officially put into operation and ignited

On June 28, the 10000T/D clinker cement production line of Tongchuan Company was officially put into operation. Municipal Party Committee Secretary of Tongchuan City, Mr. Fan Weibin, Mayor of Tongchuan City, Mr. Li Zhiyuan, Executive Chairman of China Cement Association, Mr. Kong Xiangzhong, and Vice President of West China Cement Limited, Ms. Wang Rui attended the ceremony.

At the ceremony, Ms. Wang Rui pointed out that the Tongchuan 10,000-ton line is a key demonstration project created by the group in response to the national, provincial and municipal green environmental protection, supply-side reform and other strategic calls. The follow-up will accelerate the construction of aggregates, building materials, logistics and other sectors, and strive to make greater contributions to the economic and social development of Tongchuan City.

Mr. Li Zhiyuan congratulated Yaobai and Jidong's two 10,000-ton production lines on the start of production. At the same time, he hoped that BBMG Group and Yaobai Group would give full play to their advantages, strengthen operation and management, and make new changes and great contributions to promote the high-quality transformation and development of Tongchuan City.

Mr. Kong Xiangzhong delivered a speech on behalf of the association. He hoped that enterprises would strengthen management and production safety with a high sense of political responsibility, give full play to the leading role of large enterprises, and put national and industry interests first, and contribute to the economic development of local governments. Steady growth of industry interests bears more social responsibilities.

Finally, the leaders and representatives attending the meeting touched the laser electronic ball together and announced that the 10000T/D clinker cement production line of Tongchuan Company was officially put into operation.
