

## **An Investment of RMB100 Billion Yuan Will Be Used to Eight Major Water Conservancy Projects in Shaanxi Province**

It's noted that a series of water conservancy projects in Shaanxi such as Comprehensive Renovation on Weihe River and Flood Control Project in Dongba, Ankang are under intensive deployment, indicating that Shaanxi Province has attached great importance to water conservancy construction. According to the reporter, there are eight major water projects currently deployed in Shaanxi Province with total investment of RMB100 billion during the 12<sup>th</sup> Five-Year Plan Period.

The eight projects are Hanjiang-To-Weihe River Water Transfer, Comprehensive Renovation on Weihe River, Treatment on Nanshan Tributary, Dongzhuang Reservoir Construction, Flood Control Project in Dongba, Ankang, Water Diversion in Yellow River of Yan chuan, Water Diversion in Yellow River of Daquan, Yulin and Hongyan-To-Shitou River Water Transfer Project.

It's noted that these eight major projects will be completed in succession within the 12<sup>th</sup> Five-Year Period, which will provide strong support and assurance to the development of Shaanxi Province.
