

Xi'an Free Trade Zone Proposal will be reported to the State Council

According to the report by China Business View, it's noted from the executive meeting of Shaanxi Government, Xi'an Free Trade Zone Proposal will be finalized in June by Xi'an Government and report to the State Council for approval.

Apart from the application of Free Trade Zone, Shaanxi Province will fully implement opening development strategy to ensure its steady economic growth. The government will issue the construction scheme of Silk Road Economic Belt and promote the normal operation of "Chang'an" international freight train as well as the opening of the tour train between Xi'an to Central Asia. Attention will also be focused on increasing the introduction of airline companies in Aerospace Industrial Base and setting up local airlines. Shaanxi Government will also speed up the construction of electronic port and Xi'an National cross-border trade e-commerce service pilot as well. In the meantime, the government will continue to attract investments based on the experience of Samsung Project.
